INVESTMENT OBJECTIVE AND POLICY

INVESTMENT OBJECTIVE

The investment objective of the Fund is to provide liquidity and a moderate rate of income, to the extent consistent with the preservation of capital.

INVESTMENT POLICY

The Fund seeks to achieve its investment objective by investing on a diversified basis in deposits and debt securities.

Deposits

The Fund will invest in bank deposits with a maturity of less than five years provided that no more than 10% of the net assets of the Fund will be placed on deposit with any single credit institution although this limit may be raised to 30% of the net assets of the Fund for deposits with credit institutions of a type described in paragraph (g) (i) to (v) of the “Investment Restrictions” section of the Prospectus.

Debt Securities

The Fund may also invest in government and corporate, fixed and floating rate debt securities (such as bonds, certificates of deposit, commercial paper and investment banker acceptances) which are consistent with the investment objective of the Fund. Such debt securities may have a rating of investment grade or higher from Moody’s Investor Services, Inc. or investment grade or higher from Standard and Poor’s or the equivalent as determined by the Manager, be unrated or be below investment grade. In respect of such below investment grade securities, it is not expected that the Fund will hold in excess of 10% of its net assets in such securities.

In selecting debt securities, the Manager will take the following factors into account:

- the current level of economic growth and the expected evolution of economic growth;
- the current level of inflation and the expected evolution of inflation; and
- the fundamentals of the underlying debt security, with a focus on the valuation opportunity and the quality of the issuer.

The Fund will not invest in assets other than those set out above or undertake any exposure to currencies other than Euro.

Investors should note that there can be no guarantee that the Fund will achieve its investment objective and that an investment in the Fund is not a deposit with a credit institution and is subject to fluctuations in value.

The Fund will not use derivatives for investment or any other purpose.

The Base Currency of the Fund is Euro.

The assets of the Fund will be invested in accordance with the restrictions and limits set out in the Notices issued by the Central Bank and described in the Prospectus.
